PROFESSIONAL EXPERIENCE

ByteCity Inc.   *May 2022 - August 2022 (3 Months)*
Junior Software Engineer Intern
- Collaborated with a team of developers to design and implement web applications using Python, Django, HTML, CSS, and JavaScript. Assisted in database design and development, as well as testing and debugging of software applications. Gained hands-on experience with version control using Git and participated in Agile software development methodologies.
  Technologies:Python, Django, TailwindCSS, Javascript, HTML, CSS3, Github actions,Docker

Jcc Gateway Church.   *May 2023 - Present*
Tech Support:
- Attending matters related to IT, networking, or audio-visual equipment, you can assist in setting up and maintaining sound systems, projectors, and other equipment used during services and events. Ensuring that technology runs smoothly enhances the worship experience for attendees.

PASSION PROJECTS

Hotel Chatbot
- Developed a hotel chatbot using Python and natural language processing (NLP) techniques, allowing guests to inquire about room availability, and receive personalized recommendations. Utilised NLP libraries such as NLTK to provide accurate and context-aware responses.

Ghost Hunter Game
- This is a Ghost hunter game I developed using JavaScript

Ndinya Feeds website
- This is a livestock and poultry feeds website

JCC gateway church
- This is a church website demo using HTML,CSS and Javascript

Youtube Video and Audio Downloader
- This versatile application empowers users to effortlessly save their favourite content with just a few clicks, offering high-quality downloads in various formats.

Hotel System

COMMUNITY
1. Google Developers Group
